DECLARATION UNDER 37 C. F. R. § 1.132

I, Yasushi AKIYAMA, a Japanese citizen, residing in Kakegawa-shi, Japan, declare as follows:

I received a Bachelor of Science degree from Yokohama City University in March, 1999 and a Master of Science degree in organic chemistry from Yokohama City University in March, 2001. I had had been employed by Clariant (Japan) K.K. as a research & development engineer from April, 2001 to October, 2004. And then, I have been employed by AZ Electronic Materials (Japan) K.K. as a research & development engineer since October, 2004. I have been involved in research and development work relating to photoresists and ancillary chemicals since 2001.

I have been named as an inventor on at least 2 US Patent pending and 3 Japanese patent pending applications. I am an applicant in the above-mentioned patent application and an inventor of the invention claimed therein. I am familiar with the references which were used in the rejection thereof.

In order to prove that the Example of cited document, JP08-044066, is impossible to exercise, the following experiments were performed by me or under my direction and control by a colleague who has communicated his finding to me.

< Experimental report >

Fluorinated polyether compound solubility test with deionized water for the patent application JP08-044066.

<TEST1>

We acquired perfluoro-3,6,9-trioxadecanoic acid such as formula 1 of JP08-044066 paragraph [0014]. Perfluoro-3,6,9-trioxadecanoic acid (0.15g) was added to deionized water (4.85g). After mixing this solution with magnetic stirrer for one day, this compound couldn't be dissolved in deionized water.

I declare that all statements herein made on information and belief are believed to be true. I understand that willful false statements and the like are punishable by fine or imprisonment or both (18 U.S.C. 1001) and may jeopardize the validity of the application or any patent issuing thereon.
